BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Coca, Mr. Expa has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills, it is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating sround us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves cell fortified with pure blood and a preperly nour-tehed frame."—[Civil Service Gazette Made simply with belling water of milk. Standard was rively in the Pacific slope before the opening of the Machani The Shooting Tournament at Carson. Burke then joined, and brought the score to a tie. A shout went up from the spectators, and Captain Dunne gave orders to clear the entire building if there were any more demonstrations of applianse from any quarter. The shooting then continued without interruption. The two teams ran closely together during the rest of the 200-yard shooting. At the close the score stood: California 234, Nevada 330. At the 500-yard ange Burns opened with 4. Lord scored 5, and at the end they had tied at even targets, with Lord Creedmooring. The shooting then continued until the Nevada team crawled slowly up on their opponents, and were fully six points ahead. The interest grew as the shooters, sprawling on their stemachs upon the clevated shooting-box, continued to pump lead into the bull's-eye most methodically. Finally two targets were run instead of one, and the line of spectators began to lengthen out alongside the range toward the targets, until the guards found it hard to preserve order or keep the line from crowding into the range.

FALL OF THE LADIES' PAVILION.

While Thaxter and Cowing were shooting, a portion of the ladies' pavilion at the right of the range suddenly gave way, and precipitated over fifty people to the ground, including many ladies and children. The crash of breaking timbers and the screams and groans of the injured caused the greatest excitement, and there was a rush to the spot. The shooting was suspended temporarily. Dean Hatch was injured about the face, Dick Dwyer, of San Francisco, was injured internally, and Mrs. Smith, of Virginia City, had to be taken home in a conveyance. Mrs. General Murphy, Mrs. Culp, Mrs. S. P. Davis and Miss Laura Wilmott were injured, but not seriously. The people were piled on top of each other in the debris, and it was a matter of astonishment that so many escaped. The seats were originally erected by the team for their lady friends, and were not intended for gentlemen. Many, however, took places there, and the combined weight caused the accident.

THE LAST TARGETS. FALL OF THE LADIES' PAVILION.

THE LAST TARGETS.

Nevada lost ground from the several targets, and was one behind when Sifiell and Perkins took their place for the last target. Saffell opened with a bull's-eye. Perkins followed with a four. Saffell made a four, and then Perkins made two wild three shots, his gun missing fire continually. Perkins threes called forth a slight demonstration of applause from the spectators, and Captain Lord announced that if any more applause was indulged in at the expense of the guests he would clear the ground. Saffell's fourth shot was a four. Perkins gun got out of order, and he could neither fire nor extract a cartridge. Night was coming on, and as it was impossible to revair the gun inside of an hour, the match was declared postponed until 6 o'clock to-morrow morning. The score now stands: California, 200 yards, 434; Nevada, 200 yards, 430; California, 500 yards, 437; Nevada, 500 yards, 378; California, 500 yards, 436; Nevada, total, 508.

A dispatch from Roseburg states that a hand-car was run into last night by a train about eighty miles from that place. Thomas Taylor, Leonard McCarty and four Chinaman were on the band-car. The Chinamen jumped off when the train shot in sight, and escaped with a few bruises and scratches. McCarty was through the head and body, but will probably recover. Taylor received a heavy blow on the temple, and was knocked senseless. It is thought he will certainly die. The wounded men were brought to Roseburg. CARSON, September 17th.—To-day's shooting for the Pacific slope bronze trophy began at 10 o'clock at the 200-yard range at Treadway's Park. Long before the opening of the match hundreds of people were on hand, and the shooting-stand was crowded with interested spectators. Betting was very lively, the Nevada team leading slightly in the pools. On Saturday night there was little betting done, no one being willing to back the California riflemen without getting heavy odds; but gradually the odds lessened, and closed at midnight with a difference of only 10 to 8 on the Nevada team. Capt. Burns, of the California team, opened the match with 4 at 200 yards. Lord, of the Nevada team, responded with 4. Burns then scored 4, and Lord responded with the first bull's-eye, amid enthusiastic demonstrations of applause, which was immediately checked. By this time the space about the shooters was filled with excited men, and the guards were ordered to clear the space. This was done, and ropes stretched to keep the throng back. Burns closed with 44, and Lord 42. Sime and Barke then joined, and brought the score to a tie. A shout went up from the spectators, and Captain Dunne gave orders to clear the entire building if there were any more demonstrations of applause from any quarter. The shooting then continued

Perkins followed with a four. Saffell bull's-eye. Perkins followed with a four. Saffell made a four, and then Perkins made two wild three-shots, his gun missing fire continually. Perkins' threes called forth a slight demonstration of applause from the spectators, and Captain Lord announced that if any more applause was indulged in at the expense of the gueets he would clear the ground. Saffell's fourth shot was a four. Perkins' gun got out of order, and he could neither fire nor extract a cartridge. Night was coming on, and as it was impossible to revair the gun inside of an hour, the match was declared postponed until 6 o'clock to-morrow morning. The wool-growers of Easten Oregon and Washington Territory have held a Convention. The general feeling was that the reduction of the tariff on foreign wool was wrong, and is doing great damage to American growers. OLD MEXICO. The Situation at Gu ymas. Guaymas, September 17th.—The exodus from Guaymas still continues, and families are leaving their houses in charge of servants and hastening to the interior by railroads, and some on foot. The houses where parties die are abandoned, and, by order of the Board of Health, the bodies are

immediately removed and burled. The medical corps has been reinforced by the arrival of Dr.

Matheo, of the Twenty-second Battalion, and Dr. Zelse, from Alamos. They have also agreed generally that the disease is yellow fever, and not typhomalaria, as was supposed. The sloop Mercedes, from Mazatlan, arrived yesterday, and was quarantined, not having a clean bill of health. From all that could be learned from the boatmen who boarded her, the same fever prevails there, and the proportion of deaths are on an increased rate. All who came are leaving for the mountains. Twelve of the opera troupe are reported as dead. In Guaymas the deaths yesterday were eighteen, and today, so far, but eight. General Itanbo, commanding in this district, has come down to enforce, so rumor says, more stringent sanitary measures, and protect the property that is abandoned. The streets after dark are deserted, save by the rumble of the death-cart or the police. No parties are allowed to pass Nogales going north. We have no later papers than the 7th from San Francisco, as no express has arrived for three days. Several parties who left have been taken down, some at the ranchos and some on the road. BAILROAD TAXES-DECISION IN FAVOR OF THE COMPANIES. The Circuit Court of the United States has decided eight railroad tax suits, tried as repre-sentative cases, there being eighty-five in all before the Court. The Court decided that property acquired by a corporation in the exercise of its powers or otherwise is pro-SAN LUIS OBISFO, September 17th.—The seventy-hird anniversary of Mexican independence was celevated in this city in a manner unequaled by any elebration in this county. The streets and houses broughout the city were handsomely decorated, not everything passed off harmoniously and successfully. Pacific and Southern Pacific Railroad Companies are not except from State taxation because employed as agents of the general Government for postal and military purposes, in the absence of Congressional legislation declaring such exemption. The opinion was delivered by Judge Field, of the Supreme Court of the United States. Judge Sawyer also filed an elaborate opinion. The result is

that there must be a new assessment of prop-erty before the taxes of the State can be col-OCEAN FARES AND FREIGHTS. The United States Circuit Court has also decided another important case, Judge Field delivering the opinion, with reference to fares and freights on vessels enrolled for coasting trade under the laws of Congress. The Rail-road Commissioners are authorized under the Constitution of California to regulate fares in the State and were about to regulate such fares and freights on certain steamships making voyages from San Francisco to Oregon and British Columbia, and to ports in the State on the Pacific coast south of San Francisco. The Court held that so far as the vessels were engaged in foreign or inter-state commerce, they were beyond the control of the State or its Railroad Commissioners, and as vessels going south from San Francisco to other ports of the State navigate the Pacific occan beyond a maxing league from the shore, they pass out of the jurisdiction of the State and come under the control of the United States; and in respect to such voyages and commerce thus carried on there is no divided urisdiction, but that of the United States is

exclusive. John G. Hodge died Sunday morning at 4:30 o'clock in his room on Post street, near Kearny. Last Wednesday he was taken sick with what was at first supposed to be ergsip-elas, but later proved to be an scute attack of jauncies. Mr. Hodge came to this State in 1849, and established a stationery business. Dunne gave orders to clear the entire building if there were any mere demonstrations of applause from any quarter. The shooting then continued without interruption. The two teams ran closely together during the rest of the 200-yard shooting. At the close the score stood: California 334, Nevada 330. At the 500-yard tange Burns opened with 4. Lord scored 5, and at the end they had tied at even targets, with Lord Creed-mooring. The shooting then continued until the Nevada team crawled slowly up on their opponents, and were fully six points ahead. The interest grew as the shooters, sprawling on their stomachs upon the elevated shooting-box, continued to pump lead into the buil's—eye most methodically. Finally two targets were run instead of one, and the line of spectators began to lengthen out alongside the range toward In 1864 he returned to New York, leaving his this city to look after his affairs. In 1878 he took up a permanent residence here. In this year he sold out his stationery business on the corner of Sansome and Sacramento streets to the present firm of Cunningham, Curties & Welch, but soon re-established himself in the earn line on California street. The decessed was 54 years of age, and leaves a wife and two daughters, who are living in Paris with a relative. These have been notified of the death. Mr. Hogg was a member of the California Pioneers' Sciety.

THE "ALTA" TO CHAP THANDS. FALL OF THE LADIES' PAVILION.

While Thaxter and Cowing were shooting, a portion of the ladies' pavilion at the right of the range suddenly gave way, and precipitated over fifty people to the ground, including many ladies and children. The crash of breaking timbers and the screams and groans of the injured caused the greatest excitement, and there was a rush to the spot. The shooting was suspended temporarily. Dean Hatch was injured about the face, Dick Dwyer, of San Francisco, was injured internally, and Mrs. Smith, of Virginia City, had to be taken home in a conveyance. Mrs. General Murphy, Mrs. Culp, Mrs. S. P. Davis and Miss Laura Wilmott were injured, but not seriously. The people were piled on top of each other in the debris, and it was a matter of astonishment that so many escaped. The seats were originally erected by the team for their lady friends, and were not intended for gentlemen. Many, however, took places there, and the combined weight caused the accident.

LOCAL INTELLIGENCE.

THE CITY WINS AGAIN.—Several days ago the fact was mentioned that one Max Haus meister had petitioned the Superior Court of this county for a writ of mandate, to compel the City Treasurer to apportion 55 per cent. of the entire receipts of the city from all sources of revenue, including all the special taxee, amounting to \$209,000, into the sinking and interest fund, for the benefit of the bond creditors. The order was issued by Judge McFarland, and made returnable yesterday morning. At the appointed time City Attorney Anderson and Mesers. McKune & George made return in the form of a demurrer and motion to dismiss the writ and proceedings. Judge Rosenbaum appeared for the petitioner, and before the argument was entered upon it was understood that petitioner, would rely upon the same pearson the alarm was at 7:10 last evening. The damage was nominal. For some reason the alarm did not reach the world in the suits recently decided by Judge McFarland, and that they would present additional authorities bearing upon the sone of the came was nominal. Washington, September 17th.—The officers in charge of the Corean Embassy do not seem to know exactly what to do with them, and the programme of the Embassy itself does not appear to be well defined. Persons familiar with Corea do not attach much importance to the visit of the Embassy, and do not see in what respect the United States are to be benefited by it. Japan and China can furnish the petty country with all the supplies which its scanty population require, and there are probably few products of the United States which could profitably be sent there. Some practical diplomats think that the present friendly feeling between this country and Corea is little more than an exhibition country and Corea is little more than an exhibition of Oriental diplomacy, from which no practical results are to be expected. Very probably the only result of it may be to create a new office—that of Minister Resident to Corea.

PHILADRIPHIA, September 17th.—The Press' New York special says: After having seen Tilden, and studied his methods of doing business, I am well convinced that he is as capable now of enduring a canvass as in 1876. It is telegraphed that he will leave New York this week on the Yosemite for the South, going possibly as far as Rio de Janeiro. Tilden's movements are watched with the keenest interest by New York politicians. Notwithstanding Dana's persistent assurance that he will not accept the Democratic nomination for President, the Democratic nomination for President, the Democraty, have the nerve to assert that the old man is playing persistently and assiduous y for the great prize. Dana keeps insisting that Tilden is not a candidate, mainly because he is one himself, and is working to have Tilden throw his influence to him. Waterson is now hard at work for McDonaid, but he would be delighted with a ticket made up of Tilden and McDonaid.

combined." So said a distinguished writer many years ago, and it is as true to-day as then. The peor victim of Eloud Disease is drugged with Mercury to cure the malady, and then dosed with lodides to cure him of the Mercurial Poisoning; but instead of any relief, the first breaks down his general health and makes him a cripple, and the other ruins his digestive organs. To those afflicted in this way Swift's Specific is the greatest boon on earth, and is worth more than its weight in gold. It antidotes this Mercurial Poison, tones up the system, and brings the sufferer back to health and happiness. Every person who has ever been sailvated should by all means take a thorough course of this remedy.

At the Produce Exchange call session the disposition to speculate was not general, while the tone of the market was decidedly weaker, and prices were a cent off from Saturday. Sales footed up 500 tons of No. 1 White, as follows:

December—300 tons, \$1.76\frac{1}{2}\$.

Seller 1883—100 tons, \$1.70\frac{1}{2}\$.

Buyer the season—100 tons, \$1.84 \(\frac{1}{2} \) ctl.

At the Grain Exchange this afternoon there was fair inquiry, and a good record of business was made, the sales footing up 960 tons No. 1 White, as follows:

.... 1 607 Barley—The week does not open very brightly.

Stocks have been augmented since Saturday to the extent of 18,000 centals, which is out of all proportion to the demand. For some time it has looked as if a break were near at hand, and the situation at the moment is considered by many thoughtful operators to be more cloudy than ever. The speculative element has held the market in good shape for some time at no small expense and risk. Whether this support will be continued, or whether the market will be allowed to take its own course.

the market will be allowed to take its own course at \$1 \$0 ctl, but buyers will scarcely take a sack in excess of what their most pressing needs require, as they incline to the opinion that prices at no distant day will take a downward turn. Old Brewing is scarcely so firm, and \$1 15 is now said to be the top igure for choice. New is unchanged at \$1 05@ 1074 % ctl.
On call at the Produce Exchange the market was mainly handled by one operator, who made the bulk of sales while persistently forcing down values.

\$170 A PAIR!

We purchased Ten Bales of White and Colored Blankets ecently, and we consider them very extra value at the prices we have placed upon them.

Furniture Calico Comferters, full size from \$1 up. Waterproofs and Ladies' Cloth, in many different colors, a heavy purchase just in ; price: 48 cents to \$1 25 per yard,

We cannot say enough in praise of our Fall Stock of

LADIES' MERINO AND ALL-WOOL KNIT PANTS AND VESTS.

We are quite sure there is nothing in the city their equal in value. We bought very heavily of these goods and obtained unusually low prices. WE HAVE MARKED THEM ACCORDINGLY.

We have a case of 34-inch Unbleached Cotton Flannel, the stontest goods and heaviest mat we have ever seen in these goods. We can sell the same at 22 cents a yard, and it is a rare bargain for any wishing extra heavy quality.

Domestic Ginghams, 7 cents a yard.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or ourning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be ef a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a nealthy restoration of the genito-urinary organs.
